

**Php version - 7.3.3**

**Composer install laravel**

**Prepare the migration files ( eg: php artisan make:migration create\_users\_table )**

**Migrate to db ( php artisan migrate )**

**Authentication system used (Laravel UI with Bootstrap)**

- **Composer require laravel/ui**
- **Php artisan ui bootstrap --auth**
- **Npm install (node version should be at least 12.14.1) - if its another version install new version by using nvm**
- **Npm run dev**

**For auth module to work you have to uncomment below line in RouteServiceProvider.php**

```
protected $namespace = 'App\\Http\\Controllers';
```

**php artisan make:seeder SuperAdminSeeder**

**php artisan db:seed --class=SuperAdminSeeder //inserting superadmin records to db**

**Php artisan storage:link // required for the images to load**
